- 63" - \$125 (7 club)
- 66" - \$205 (10-club Tour Series)

Why rent vs buy?

1. Your child grows about 2" annually
2. Renting allows fitting, no longer required to "grow into clubs"
3. Fitted clubs promote better golf
4. You won't have a garage full of clubs
5. If your child loses interest, you're not stuck with clubs

Fitting

Use PLAYER'S HEIGHT to determine club size

Determine PLAYER'S DRIVER SWING SPEED to choose ULTRALIGHT or TOUR SERIES.

The 2/3 Solution
To help kids develop a proper release with high handspeed, the driver should never be too long. It should fit as it does for adults. Adult drivers are 2/3 their height.

Player's Height x 2/3 (.667) = Perfect Fit Driver

Example:
51" tall x .677 = 34" driver

ULTRALIGHT		TOUR SERIES	
Ultralight clubs are designed with lighter clubheads and more flexible shafts for the beginning golfer with less clubhead speed.		TOUR SERIES clubs are designed for the intermediate to advanced golfer with more clubhead weight and longer, stiffer shafts.
